Dear Mr. Ovard:

Re: Final Approval, Permit Transfer & Amount and Form of Replacement Reclamation Sureties, Holnam Incorporated, Devil's Slide Plant & Quarry and Poverty Point Limestone Quarry, M/029/001 and M/045/012, Morgan and Tooele Counties, Utah

On July 26, 1990, the Board of Oil, Gas and Mining conditionally approved Holnam Incorporated's (Holnam) replacement reclamation sureties for the Devil's Slide Plant and Poverty Point Quarries. Holnam provided the required information to satisfy the Board's conditions on October 3, 1990. During the Board's October 25, 1990 hearing, the Division presented the revised information to the Board and requested their concurrence on final approval of this permitting transaction. The Board granted their approval of the amount and form of replacement sureties.

The Division hereby grants its final approval and acceptance of the permit transfers and replacement reclamation sureties for these two mine properties. We have enclosed copies of the final signed documents for your files. Thank you for your cooperation and patience in finalizing these permitting actions.

Sincerely,

Lowell P. Braxton
Associate Director, Mining
